

GTL Infrastructures Ltd. v. State of U.P. and Others

High Court of Judicature at Allahabad · Division Bench · 31 August 2009 · WRIT - C No. 45793 of 2009 · **Provisional connections on owners' consent; writ remains listed**

HEADNOTE

On a telecom infrastructure company's writ against refusal to accept connection applications without registered lease deeds, the Court, as an interim measure and without construing clause 4.4 of the U.P. Electricity Supply Code, 2005, directed provisional supply if the petitioner produced owners' consent letters, affidavits and other conditions. It noted that earlier High Court judgments had not considered a 3 December 2008 Government Order. The writ stayed pending and was later listed for instructions.

FACTUAL SUMMARY

GTL Infrastructures Ltd., a telecom infrastructure provider, applied for electricity connections at sites with telecommunication towers. The licensees would not accept the applications without registered lease deeds of the premises. The company said paragraph 4.4 of the U.P. Electricity Supply Code, 2005 made owners' consent letters sufficient. The State and licensees pointed to occupancy-proof language in clause 4.4 and a Government Order dated 3 December 2008 barring unregistered sale or rent deeds for connections.

HOLDING

Without deciding whether paragraph 4.4 of the 2005 Supply Code requires a registered lease deed, as opposed to owners' consent letters, for a new connection, the Court directed as an interim measure that if the petitioner produces owners' consent letters, requisite affidavits and complies with other conditions, electricity connection shall be provided provisionally, subject to the result of the writ. ¶ 1
