HEADNOTE

A consumer facing a theft FIR sought a writ to have his reconnection and restoration application decided, including change of load from LMV-2 to LMV-6 and assessment of charges, and offered to deposit compounding charges. The Division Bench held that the grievance is to be redressed by the competent authority under Section 126 of the Electricity Act, 2003 read with Clause 6.8 of the Electricity Supply Code, 2005, and directed that authority to decide the application within two months.

FACTUAL SUMMARY

Rajesh Kumar faced an allegation of electricity theft and an FIR was lodged against him. His supply had been disconnected. He filed a writ petition seeking a direction that the distribution licensee decide his pending application for reconnection and restoration, treating the load as LMV-6 rather than LMV-2, and complete the assessment of charges. Before the Court he stated that he was ready and willing to deposit compounding charges assessed by the department for the alleged theft.
